Certificate of Training

Paushal

from Kali Charan Nigam Institute Of Technology (KCNIT), Banda has successfully completed an 8-week online training on **Web Development**. The training consisted of HTML, CSS, Bootstrap, DBMS, PHP, JS, React, and Final Project modules.

Paushal scored 90% marks in the final assessment and is a top performer in the training.

We wish Paushal all the best for future endeavours.

Sarvesh Agarwal

FOUNDER & CEO, INTERNSHALA

Date of certification: 2023-12-28

Certificate no. : 821gxtq2tav

For certificate authentication, please visit https://trainings.internshala.com/verify_certificate

Acknowledgement

Apart from the efforts, the success of any project depends largely on the encouragement and guidelines of many others. I take this opportunity to express my gratitude to the people who have been instrumental in the successful completion of this project.

The completion of any inter-disciplinary project depends upon cooperation, co-ordination and combined efforts of several sources of knowledge.

I eternally grateful to our faculty Mr. Vinod Kumar Verma, for his even willingness to give us valuable advice and direction under which we execute this project. His constant guidance and willingness to share his vast knowledge made us understand this project and its manifestations in great depths and helped us to complete the assigned tasks.

Introduction

Coffee Shop and Gallery offers a unique coffee house environment unlike any other in India. We are not only a place to drop in and get your morning cup of coffee (although you are more than welcome to do that), we are a place where you can sit down and enjoy that tailor-made cup of coffee.

If you need to work, we have a seating area created specifically for you. If you need to rest, we have a soft-seating area in front of a stone fire place that is perfect for your weary mind and body.

We offer a delicious variety of coffee roasted in house made by our professionally trained baristas. We have everything from classic coffee to our house made specialty beverages. All of our sauces & syrups are made in-house with all natural ingredients (no chemicals or preservatives) ensuring you the highest quality in taste & health. You can complete your coffee with one of our delicious sweet treats made by our very own baker. We look forward to serving you at Coffee Shop

Objective

Firstly, coffee shops offer a space for people to connect with one another. They are a meeting point for friends, colleagues, and even strangers. It is common to see people engaging in conversations over a cup of coffee, discussing current events, or just catching up with each other's lives. This sense of community helps foster relationships and build social connections, which are essential for overall well-being.

Secondly, coffee shops provide a space for people to work remotely. With the rise of the gig economy and remote work, many people are looking for a place to work outside of their homes. Coffee shops offer a comfortable and affordable workspace, with free Wi-Fi and access to coffee and snacks. This allows individuals to be productive while also enjoying the social atmosphere of the coffee shop.

Required

Hardware Required:

- RAM: 16 GB or More
- Hard Disk: 512 GB or more
- Processor: AMD Ryzen 7 5800HS

Software Required:

- Operating system: Windows
- Code Editor: Visual Studio Code
- Front end: HTML, CSS & JAVASCRIPT

Technology Used

❖ Html(Hyper Text Markup Language) :

The Hypertext Markup Language or HTML is the standard markup language for documents designed to be displayed in a web browser. HTML elements are the building blocks of HTML pages. With HTML constructs, images and other objects such as interactive forms may be embedded into the rendered page. HTML provides a means to create structured documents by denoting structural semantics for text such as headings, paragraphs, lists, links, quotes, and other items

❖ CSS(Cascading Style Sheet) :

Cascading Style Sheets or CSS is designed to enable the separation of content and presentation, including layout, colors, and fonts. This separation can improve content Accessibility ; provide more flexibility and control in the specification of presentation characteristics. The name cascading comes from the specified priority scheme to determine which style rule applies if more than one rule matches a particular element. This cascading priority scheme is predictable.

❖ JS(JavaScript):

JavaScript or JS was initially created to “make web pages alive”.

The programs in this language are called scripts. They can be written right in a web page's HTML and run automatically as the page loads.

Scripts are provided and executed as plain text. They don't need special preparation or compilation to run.

In this aspect, JavaScript is very different from another language called java.

Project's Module

- Home Page

- Menu Section
- Products Section
- Review Section
- Contact us Section

Future Scope

One of the major factors driving the growth of the Indian coffee market is the increasing demand for speciality coffee. With consumers becoming more discerning about the quality and origin of their coffee, speciality coffee has emerged as a significant growth area for the industry. It has led to the emergence of several speciality coffee shops and roasters in major cities across India.

Another factor driving growth in the Indian coffee market is the increasing popularity of coffee among younger consumers. As more and more young people in India adopt a more Western lifestyle, coffee has become an essential part of their daily routine. It has led to the growth of coffee shops and cafes in major cities nationwide.
